## INTERNATIONAL PRESENTARY EXAMINATION REPORT

International application No.
PCT/AU2003/001386

I.	Basis of the report				
1.	With regard to the elements of the international application:*				
	the international application as originally filed.				
•	the description, pages, as originally filed,				
	pages, filed with the demand,				
	pages, received on with the letter of				
	the claims, pages, as originally filed,				
	pages, as amended (together with any statement) under Article 19,				
:	pages, filed with the demand,				
	pages, received on with the letter of				
	the drawings, pages, as originally filed,				
	pages, filed with the demand,				
	pages, received on with the letter of				
	the sequence listing part of the description:				
	pages , as originally filed				
	pages, filed with the demand				
	pages, received on with the letter of				
2.					
	which the international application was filed, unless otherwise indicated under this item.  These elements were available or furnished to this Authority in the following language which is:				
	the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).				
	the language of publication of the international application (under Rule 48.3(b)).				
	the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).				
3.	. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international				
٠.	preliminary examination was carried out on the basis of the sequence listing:				
	contained in the international application in written form.				
	filed together with the international application in computer readable form.				
	furnished subsequently to this Authority in written form.				
	furnished subsequently to this Authority in computer readable form.				
	The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the				
	international application as filed has been furnished.				
	The statement that the information recorded in computer readable form is identical to the written sequence listing has				
4	been furnished  The amandments have resulted in the concellation of				
ч.	The amendments have resulted in the cancellation of:				
	the description, pages				
	the claims, Nos.				
	the drawings, sheets/fig.				
5.	This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**				
*	Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this				
	report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).				
**	* Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report				

## INTERNATIONAL PREID NARY EXAMINATION REPORT

International application No.

PCT/AU2003/001386

V.	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement				
1.	Statement				
	Novelty (N)		Claims 1 - 20	· YES	
•			Claims	· NO	
	Inventive step (IS)		Claims 1 - 20	YES	

NO

Industrial applicability (IA) Claims 1 - 20

YES

Claims

Claims

NO

2. Citations and explanations (Rule 70.7)

Claims 1-20 meet the criteria set forth in PCT Articles 33(2)-(4) for novelty, inventive step, and industrial applicability, because the prior art before the priority date of the present claims does not disclose or fairly suggest a process for producing titania from a titaniferous material as disclosed in the present claims. This process has industrial applicability.
